Characteristics

Diamond 908 series is manufactured under strict european standards, in order to achieve international printing standard **ISO12647** and color standard **ISO 2846.**, and has over **25%** renewable vegetable oils. Raw materials used in the process are carefully selected and controlled to assure a consistent batch to batch quality, but specially to guarantee a perfect performance in different presses, specially in multicolor presses with perfecting at high speed..

Diamond 908 series is a user friendly ink, easy to use for printers. The fine pigment dispersion in the inks allow for consistent color stability during press runs.

- Premium Ink
- Fast setting
- Good for 8 color+ perfecting presses at high speed
- Excelent stack behavior with very little spray powder
- Great Gloss
- Ideal for IR drying
- Excelent Ink / Water balance
- Duct Fresh
- Very Good rub resistance
- Excelent dot reproduction

	Light BWS	Alcohol	Alkali
